Meets once each Month

FOR SERVICES RENDERED * *

Pallas, looks like the summer inactivity session is upon us already. After our last article on attendance we thought it mite aprros up our ego. Instead it deterred us to the extent that there was very very poor turn out at the last meeting. We know for a fact that Amateur Radio hasn't died in the area and we all have Ham problems. Would that it were possible the XYL excuse us for one Saturday eve each month so you could attend an informal "Ham" gathering with the rest of your local brother amateurs ?

IN GRATITUDE

To XYL of W3IGH, I wish to take it upon myself to apologize and show appreciation for the work and effort shown us at the last meeting of the AWA. Due to the very poor attendance our bets are off to you for not flipping your lid.
Honorable mention is here-with given to the XYL's of W3KJJ as W3CMA for preparations at previous meetings.

WHERE TO NOW * *

The next meeting of the AWA will be in charge of host K3BGP Andy, 362 W. Kline Ave. Lanaford, Pa. May 31 at 8 PM. Show your appreciation not only to the AWA but also to Andy K3BGP by your presence at this meeting. Don't forget about Field Day, June 28.

RACES C. D. * *

The Schuylkill County Races plan has already passed thru Eastern area Hqdr. and now in Harrisburg. Next and last stop Wash. D.C. After final approval there will be quite a bit of gear available to the county Hams for their use and operation in drills. Unless your station is RACES licensed or active in some local CD work you will be sitting on the outside looking in when the equipment is passed out. There has been a number of PCC 481-3 forms passed out. Some have been filled in and returned, a number of them still standing out. Unless your County Radio Officer receives them by May 31 your name shall be placed on the inactive and ineligible list. This dead line is made to meet PCDA specs.

FIELD DAY 1958 - -

The AWA has been acknowledged by ARRL as an amateur Radio club and we have received log forms for the 1958 F D. Its up to you to decide at this meeting when.where and how we are going to hold field day. So lets get the thinker workin' and join the thousands in the field this year and enjoy a weekend of fun, operatin' and above all AMATEUR FELLOWSHIP. The first one asking for coke instead of stealing it will be disqualified.

DEEPEST REGRETS

We regrete to note the passing of the XYL of Loyde Arnold W3SNX. Arnold is a Lehighton op and known to many of the local operators.

HERE as THERE * *

BGP has invested in a mike, mw herd workin the local on fony....CMA is havin' it ruff meeting the ow skeds with zpw.... CUK has dropped the slash bar as is now fixed (for hw lng)... ZRQ is QRL workin DX wid the mw end pln ant as pasting the floor wait ing for jeet one of those Asian certs to show up for WAC....IGH has joined the second Harmonica club..599 X up in Marina, not bad for a start....ORJ is QRL the paint brush....KJJ added a 10 mtr converter to the shack but now there is no more 10 mtr band. More gear to collect dust. No more reports - - Happy 30th of May to all as 73. . . A W A
