"OPERATION CAMBRIT

The Schuylkill County Stations on during the Alert on Friday July 20 was very successful in so far as this county was conserned. 10 stations reported into the net at county level. Those acknowledged were: W3EEK. W3KHL. PTM, FLJ, CMA, ZXF, PYS, ZPW, the Countrol station was W3ZRQ. Operation on State level was on 3997 KC, this county operated on 3950 and 3860 KC and 144 MC. Due to the cncapacitance of this operator, 28 MC was not monitored.

As a report from this Station, I wish to thank each and all who helped in this Counties CD Network. Each operator checking in played their part out to a Tee. The next such operation should prove just as good if not better. We learned the drawbacks and bad points from this alert. We must say, however, that the Club members and Net Members did a 100 percent job. We can only do better by having more towns reprt in next time.

The Schuylkill County court house and the Tamaqua Borough Chief Burgess, S.N. Johns assisted in originating Traffic which was dispatched as quickly as the band conditions permitted.

73's Al ZRQ

A N NET NOTES

by W3ZRQ Mgr.

Due to this issue being printed a week in advance of the usual time we will give the July QNI in the September issue. As a last reminder---This picnic is also the gathering and last meeting of the combined TFC nets picnic committee. The committee consists of W3TSY, NOK, UWP, and W3ZRQ. Those planing to attend the picnic at Hershey August 12th may still register with any of the above committeemen, or, for Free information without obligation see us. A fine time is guaranteed, Rain or Shine.

RECEIVER HASH

Al, W3ZRQ, is sporting a new Gonset Communicator, a nice new addition to the shack. W3ZPW has returned to the ham bands as he broke into the weekly get-to-gether on 75 foney with the rest of the local yokels. Welcome back Roy. W3PTM is doing a nice job on 2 with that new rig and the 3 el beam. The XYL finally gave in and now Hub is on 10 mobile now. Could be that the W3CMA-W3ZXF combine had a mobile rig in the planning stage. Cum on in boys, the water is fine. Hi. W3AMC es W3BNR attended the Club meeting last week and gave some of the locals some 10 mobile QSOs. Three members of the Club took the Novice exam es we will soom have some new calls around these parts soon. Who will be next? If W3FLJ ever gets all that heavy equipment in the shack that he is planning to buy, Pop will have to get the floors reeinforced. Hi.W3EEK is sporting a new 8 watt rig and can be heard on the novice band hollering his head off also the Tennessee Valley Indians are on the warpath since EEK got experimenting with his home brew. W3KJJ has been working too much DX lately he is going broke paying the due postage on his DX cards/ W3YXS was working 10 meter mobile after the last club meeting and worked cross town with BNR mobile. W3PTM has crossed sum wires in his modulator and was having trouble getting on 75 fone to chew the fat with the local boys. W3CPR has been experimentting with antennaes at Fort Devens, Mass., and slipped off the roof and they think he has a broken arm or shoulder. What say you send him a get well car to cheer him up. COW is QRT for a while--probably working on his new 6 meter rig. Blihar put the new fender on ZXF's Chev. so ZXF is out playing the field agn. Cma & ZRQ enjoyed a gud QSO with PTM with ZRQ'S new 2 meter rig. ZRQ manned the mobile and CMA manned the 2 meter job and can say he had a very gud time. The Club has two mew members Harry Schaeffer from Coaldale and Carl Reed from Brockton..Club is still growing. Lets keep her going strong.

HORSETRADERS DEPT.
