Ye T.A.R.C. SARDINE WRAPPER

Vol.1 August, 1955 No.10
Published monthly by the Tamaqua Amateur Radio Club
TARC meets every second and fourth monday of the month
ARRL Affiliated
3860 Kc. Fone ** Club Frequencies ** 3700 Kc. C.W.

Perhaps this is a vy strange es perculiar way to open this issue of the wrapper, however if you attend the next meeting of the TARC you to may get in on the full meaning of the can of Saurkraut juice and the"well used" and pre-historic tool shack. W3WJY/3 is at this time well versed on the use of these two pieces of equiptment and will give a talk at the next TARC meeting on the finer aspects of the why's es where-fores on these two items. We called on him to give the club a speech on this becuz we know that he has had many hours to-gether with these two components.

NEXT TARC MEETINGS * * August,22 Code class 7 PM
BOROUGH HALL September,12
ROWE STREET 8 PM sharp September,26.

EDITORIAL * * * * By W3ZRQ

As you know there has been quite a lot of activity around here lately and that is the reason for the wrapper being late this month. Ur editor in chief is away at school and sum of the other wrapper staff don't like to werk in hot Wx, while others are spending their vacation in the Hospital. Teddy, WN3COW is in the Allentown General Hospital, drop him a crd or better yet drop in to see him.

We have been puttin off the publication of this issue untill the picnic committees got their "Q" sigs straitened out. And as you agn notice the wrapper is small. Don't blame the wrapper staff but go take a look in the mirror.

The TARC together with the Car-le clubs have announced that a joint picnic will be held on Sunday, August 21. At FRANTZ'S GROVE at New Ringgold, Pa. Starting time will be 8 A.M. till ? ? ?
A basket lunch is all you need bring. The committee has made plans for your entertainment. Bring the XYL or YL es the Harminics, there's lots of room for them to run. The TARC will try to set-up a portable rig in order to talk the fellas in to the grove, however signs will be posted for those not fortunate to own a mobile rig.

A special note * * Enclosed with the "Sardine Wrapper" you will see a post card. Pleese fill out the proper lines and return this to me as soon as possible. The DEAD-LINE fer these cards is WEDNESDAY AUGUST 17th. Unless this card is returned by that time it will be expected that you have not planned to attend. This information must be in the hands of the committee in order to prepare for any extras.

As for the price of addmission * * Its FREE FREE FREE
All expense will be taken care of by the two clubs.

Talk it up on the air and have ur frends attend but by all means have ur card in by the 17th. For further data see the Committee Chairman K.W. Pfeil W3KJJ. CU at the Picnic Vy 73 "Al"

CAR-LE BRIEFS

by BNR

W3WJY, Nobe, spent the month at Lake Harmony, operating /3/ Had quite a few visitors. Sure is nice having a fellow club member with a lakeside cabin, eh Nobe?..Good things don8t last forever as AMC and BNR can verify. Seems as the B&W is now out of commission for a while due to TVI on 75 fone. So they are on the air with the Heathkit AT-1 using cathode modulation. By the way, AMC is now on an extended trip to the wilds of Canada and without a rig or receiver. Boy! How rough can things get?-...-We're also wondering if the WØ mobile ever got to Lake Wallenpaupack. How about it Nobe? There's a fellow that gets lost in Lehighton and then tries to tell a wandering mobile how to get someplace....We want to thank the TARC members who came to our July meeting. Without you there wouldn't have been much of a meeting.....ZRQ is putting in a very potent signal here in the Lehigh Valley. That 300 watts sure sounds nice on the band.....nBBS is all set to go on 75 mobile. Sll Jim needs now is the General Ticket. Jim is working 3714 and 3725 kcs and would appreciate calls from the gang. He's on at about 1730 each evening throughout the week. Lets help him get his general.... There will be a picnic on August 14 at Hershey Park. All members and friends of the PEN? AN? EBN? and Pennsylvania CW nets are invited. Bring your own food. No admission, no donations, just a good time for one and all. AMC and BNR have both received the Car-Le Radio Club Certificate...Have received QSL card from K2ENZ and he says that a few of the Car-Le Club members just won't send him QSL's. There are five of them and I know who they are. Come on fellows, get your QSL's over there to Tom. He wants the club certificate....BNR is having a grand time with his 6 watt 10 mtr rig. T There is quite a bit of activity on 10 mtrs in the Allentown-Bethlehem area. There is alot of 2 mtr activity down there too. UEU Henry, is out on vacation in case you are wondering why he's not on the band....That

SAURKRAUT JUICE, what about it Nobe? AMC has a new antenna up for all bands and has built the antenna tuner described in April QST page 38...AMc has also built the SWR indicator described in March QST. He's got the building bug...Speaking of building AMC is now working on his 2nd Q multiplier... W8VPC offers a wrd of advise to NC125 holders. Ben says to change the first rf (V1) from a 6SG7 to a 6AG7 for better sensitivity. We have not tried it as yet...BNR is constructing the Stancor 10 mtr xmtr for mobile use...AMC and BNR have put up a 20 mtr dipole fed with RG11/U coax cut for 14.25 mcs...Your Car-Le reporter was monitoring the CD freq during the CD drill and didn't think too much of the way things were run. There was much QRM from W3MPO/3 on the western net and from various stations on the middle PA net. Besides that there was quite a bit of confusion during the message handling. Thats all for this month. More Car-Le news next month. Get ur scandel dope into BNR before the last week of the month.

****** RECEIVER HASH *** **

The TARC has gotten together with Car-Le and have come to the conclusion that a joint picnic cud be worked out. Each Club has appointed a committee and it is hoped that they will get togther and plan a Wing--Ding affair--for futher picnic news keep in touch with your club and attend its meetings----Nobe WJY/3 is having quite a problem.....WJM had truble getting on 75 foney---seems that he forgot to turn the Mudlator on and was talking to himself....ZXF is now 15 yrs. young es is vy Happy cuz his dad CMA got him a brandy new Vibroplex....CMA es ZRQ got quite a scorching during the heat wave wen they put up a new Half Wave Center fed Sky wire for ZXF. However wid lots of ice water es QLF they kept their inside temperature down. ZRQ is nw QRO wid 300 wts all Home Brew es had a werl at DX on the first week es nailed him a GM3 es 11LI in Italy RZV has been on 40 lately also luking fer sum of that DX....AKF is still devouring the left over FD bean soup, but is temporarily QRT..Seems the frequency is still on the stolen list, pse some one return sed Freq....CMA now at the Bronx, N.Y.C Getting himself sum book learning for his Masters degree, and listing in on the Car-Le Rag Chewers regular..es is going to operate Wn3CMA/2 on 3700. Listen fer him about 5 P.M. Latest report New England Valley ZPW blowing out 5 tubes in neighbor T.V.Set; also TVI from Teleplex Code Machine. After August ZPW intends to correct trouble with Kilowatt. Can ani one enlighten the editor as to the two Car-Le ops who have recently recieved FCC QSL ? I believe monitors and wave meters were made to correct this...Late FLASH.. U need not wory abt abt fallin of the flag-staff mountain now, cuz the committee has changed the place of the picnic..... 73 C U L by NUFF SED
