MEETING EVERY SECOND AND FOURTH MONDAY OF MONTH

E D I T O R I A L

I have very little to report at this time on Field Day, but I shall endeavor to bring you up to date. We have received permission to use the same site as well as the building. I may at a later date be able to tell you that we may have the use of an additional building that is now being used for storage. As far as equipment, we have two receivers and one transmitter promised to date. So follows at our next meeting I would like to see all of our FIELD DAY equipment promised.

I would like at this time to mention a very BIG WORD of PRAISE to the CARBON AMATEUR RADIO CLUB for the wonderful time we all had at their Banquet April 7th, 1956. At this time two portions of that evening still remain in my memory. The SNOW which we had no control over and the 18 year old article from the magazine Colliers which the XYL'S enjoyed so much. I must say we of the opposite sex certainly did control our feelings and tempers. I was unable to get Colliers to forward an 18 yr. article on WOMEN but I have this to say:

American men make the best husbins in the world - honest, dependable, hard working, good providers. They are kind, considerate and affectionate. No home is complete without one. Every single girl knows she's just got to have a husband. When the right man comes along, she goes all-out to let him know she thinks he is wise and wonderful. The man is sure she means it. They become engaged and set the date. THEN WHAT HAPPENS??????

As soon as the man says "I DO," the situation begins to deteriorate. He isn't wonderful any more. Some how he isn't as wise as he used to be. In no time at all, she is telling him what to do, how to do it and then giving hell for not doing it right. And she keeps right on doing it. And that isn't all...

He works hard to pay for all the things she wants and when she squanders the dough on something foolish, he's supposed to say he likes it; otherwise he is a brute. That word Brute isn't always spelled that way either. He must always pass out the compliments and show his appreciation, but compliments he doesn't get and appreciated he is not.

I understand the plight of the married man and shall from time to time attempt to make the going for him a bit easier. To help him bear up, the Sardine Wrapper will contain some kind words for the man of the house, tips on how to get along with the little woman, useful alibis, sound advice and some humor to help him try to forget his troubles. . . . . .

73's for now WN3COW

THE CARBON ARC BY W 3 B N R

AMC is in the process of building the SSB unit described in March QST ** BNR has the AF - 67 installed and working. Had a couple of contacts with Detroit on 75 phone in the mornings on the way to work ** BBS has joined the ranks of 5100 owners ** Anyone interested in purchasing a BC-610 and modulator units with coils and tuning units for 80 thru 10 meters contact BBS ** AMC and BNR are using the W2VS REYCO Antenna ** Anyone who would like to see a piece of workmanship just take a run to Jim Thorpe and have a look-see ar UEU's new rig ** there are rumors that the ADMIRAL is thinking of building a (u no what) ** LGZ is using a Master Mobile 75mtr whip with his fixed station so he can work all mobiles around this neck of the woods ** Does anyone know ? what happened to RQK or AKF, haven't heard them on lately **

73's for now

Due to conditions beyond our control, the scheduled ARRL Movies will be shown at another Club Meeting.

RECEIVER HASH BY W 3 K J J

W3CMA, ZRG, OML es KJJ attended the OLD TIMERS ROUND UP at Trenton saturday April 21st. Had a niece time but did not bring home any Prizes.

Thru the efforts of W3ZPW, our Annual Field Day will be held at Teter's Grove in the New England Valley June 23-24.

What happened to W3ZXF ?? AUTOMOBILELITIS - mebbe he should get a Mobile Rig to keep in touch with ham radio Hi. Or is it YLitis ??

W3CMA has secured the KW Final from KJJ - boy is the South Ward gonna sizzle with RF.

W3ZRQ was a South Penna. visitor during the month. He is on the Picnic Committee for the AN net. Understand the affair will be held at HERSHEY PARK in AUGUST.

W3FLJ has been working FONEY lately-seems like he rescued some slightly used ?? 6L6's from KJJ's junk heap and deceided to make a foney rig around them.

W3EEK has secured a Q-Multiplier to try and separate some of the stuff his S20R picks up ?? Anyone have a VFO for sale?? See EEK if you have one to peddle. Come on you SHEENIES.

W3OML is driving his 813 all the way to 85 plate ma. on 75 fone. Come on Herp, start tickeling that thing.

Joe, W3LXY is working out nicely with his Globe King and his new Antenna using traps and has been chasing the Ole DX.

W3RZV is QRL with the Morning Call but manages to get on at times and get in on some of the local rag chews.

W3YXS is accumulating the necessary material for construction of 2 meter transceivers. Should be interesting when he gets it going.

Understand WN3COW is going along with Wally on that 2 meter Transceiver deal also.

WN3CUK is working out of town and is probably sporting a portable call by now and giving the neighbors on N.Greenwood a well earned rest.

W3KJJ has a new Globe King.Final and an all Band Antenna which the gang help raise Sunday a week ago. Does well on all bands.

WN3CSR has a new bottle for his rig and should be back on the Novice Bands by now, keep an eye peeled for Hometown.

W3HA es W3AMC also attended the Old Timers Nite at Trenton last Saturday.

W3PTM was a vistor at W3ZRQ's shack Sunday and the descriptionof Al's rig sounded good over the 75 Meter Foney rig.

Busy studying the Code are the following SWL's BLIHAR & BLIHAR JR. PFEIL, LATTANZI, ROMAN, WEST, RILEY, BITTLE, HOWELLS, SATORIS, DEMCHAK and some YLs who attended out last meeting.

Breiner took the YLs under his wing and is giving them Code Practice.

73's for now.

We wish at this time to apologize to a real good friend and brother of the TARC. DOC. FLANNIGAN who has written a tolal of three articles to date. No you have not seen one to date due to our file clerk. However we have managed to find one of them Doc. it is a month late but we are printing it here and now. *****Congratulations are in order for Robert Hass 560 Sunbury St. Minersville, Pa. phone 4-2184 a birthday April 8th, 1956 W3YYT also Allen Breiner 212 Race St. Tamaqua, Pa. phone 1979 J April 26th, 1956 W3ZRQ. Congratulations are in order from TARC to you. Due to more reasons than one you have the entire appologies of the TARC brother members if you had a birthday in April and your name and call was not listed. The check list and information of this nature will soon be up to a standard recorded source. So fellows this year when you see me Doc. Flannigan at Field Day I shall want your name, year, month, and day of birth. So that when that date comes round you will receive your official FCC birthday card. Hi. Hi. Hi. Speaking of Field Day it is an annual C W picnic but still another phase of Radio development. It may find a place in future broadcasting, namely, recording on the spot or by facsimile radio. The day is soon to dawn when radio or C W activily will be repeated at the snap of the electric switch on the home Talkie Screens And recording machine Synchronous. 73's for now. Written by Doc. Flannigan
