EDITORIAL;

On Sept.15 a meeting was held as to wether Tamaqua Hams oud afford an Amateur Radio Club.It was decided to form the TARC. Meetings to be held on the 2nd & 4th mondays. A regular meeting was held at the American Hose Co. on Sept.27. Many of the new commers and hams realy interested in the organization were present. If a better attendance is not shown the TARC will still keep on going. With the interest shown by some I'm sure this newly formed organization will show improvement in the next year. Pse try to attend the meetings. Instead of sending cards out every two weeks I have made a sample of a TARC news to be put out once a month. Wat sa we get a little comment and some news for the Nov. issue. Get news articles to me not latter than Oct.30th. Tnx es 73s Cul. - ZRQ -

Next meetings - October,11 es 25 8:00 PM EST American Hose Co.

RCVR. HASH

We wish Tex RZV luck in trying his hand at mobile operation...."Doc" OFL has been talking to himself for the past few sundays- Pse "Hen" 3MB get ur rig going so Doc don't use so much of PHFs electric - or is it a mutual financed deal Doc....QKS has got the bug agn es will be on for the winter months-his shack is to hot for summer operation. For many a yr. now the local gang has been waiting for a certain OM to get his ticket-he finnaly got it es is on 40 es 80- now they wish he'd loose it so to give them es the rig a rest....Another either buster is in the makin-Bud Sarli is wearing the hall carpet out looking for the mail-man....KJJ isn't so well psed with his new Gnd.Plane It raised the S of his rig but not the Rcvr.Now he's building a preselector for the NC101x so he can hear the stations that hear him-isn' that silly, why not take a half a gallon away from the rig.... ZPW got over the hump the other nite he got a W8 es a W1 ,Fb Roy ... Will some one pse notify WG that the FCC says you have to sign a call to all carriers every minute it is on the air....PTM was out in the Bk yard looking over his LW ant. he's thinking of adding more to it up over the Mountain- Don't u think its better to add a bigger bottle in the rig- it wrks better in getting out....We wish to extend the hand of welcome to SWL Thomas Theadore of Lansford....

Well wat sa OMs...Lets have a little comment on the first issue of the Sardine wrapper. Also get some more rag chewin for the next issue If we need more paper we'll make a two pager out of it. Got any pet article you want to put in? Write it up es we'll see what can be do...
