MEETING EVERY SECOND AND FOURTH MONDAY OF THE MONTH

NOTICE

CLUB meetings go to Winter Sked. Two meetings a month from September on. Next meeting Sept. 10 and 24th.---- 8 P.M. sharp.

— EDITORIAL —

BY W3ZRQ

My handle is Al, I live at 212 Race St., Tamaqua. I have been appointed as Activities Manager of the T.A.R.C. to fill out the unexpired term of this elected office.

The officers of any organization CANNOT do their jobs to the best of their ability unless they have the support of the membership. Do I HAVE YOURS?

—13

I have quite a number of activities for the club in the planning stage. I shall try to list some of them here. I would like your ideas also, two heads are always better than one. Some of these ideas a are yours, mine and some stolen from other Club papers which I swap issues with.

First: Activity at the club meetings. Our Constitutions states we are organized to forward the interest in Amateur Radio and teach the craft to new-commers (of which we are in abundance) I shall start the ball rolling by giving a Black-board talk on "Zero beating with your VFO and Receiver" and "Modulation". This will be at the meeting of September 10.

When our club was first organized we had a Black-board talk on "Antennas" by Karl Pfeil W3KJJ. This was one of the best I heard anywher. Since that time we have had quite a number of new operators get on the air (or so they thought) and always had sky-wire trouble. At the meeting of September 24th. Karl W3KJJ will give a repeat on this item "Antennas and Couplers".

I hope as your new activity Mgr. to have a speaker on some phase of "Ham Radio" at each meeting. If you are well versed on some such subject please, please let me know.

Second:

Somewhere in this "Wrapper" is a square with a number in it. Bring this wrapper with you and see what you win. This will be called the attendance award. There are two meetings a month so make sure your "Sardine Wrapper" is with you at both meetings.

At a previous meeting some member said "Lets have a transmitter hunt". Thats a very good idea, BUT, HOW? There are two mobiles in town on 10 mtrs. One club member, one not. Two other members have Converters in their autos, still another has a 2 mtr set up in his car. Will some one with a little more gray-matter give me a helpinghand on this one.

Another activity is "The Sardine Wrapper". This is you activity. But you are very inactive with it. We have lost three Gud Editors all because you don't send in your activities. These editors are doing a swell job at present, but they pick up the scandal along the way. Occassionally some one gets steped on a little hard and the Editor catches #$%_&'(. So how would you feel?

Yes its a ticklish item, this "Wrapper". We loose active workers because some one rubbed the fur the wrong way. I accepted this job as activity manager only on one condition. YOU HAVE TO HELP..I'lls set-up the activity but you will have to go through with it. I want your ideas as well as mine. If your ideas for activity stop coming in then I'll have to resort to mine. The first one to moan or gripe will be your new Activity Mgr. Thanks in advance for the very little help I'll get and hope we have lots of "Ham" activity together.

RCVR HASH

RZV has jest been made a member of the TAMaqua Jr. Chamber of Commerce other times he may be found on 20 foney...ZPW is nw QRL the YL's city league, other times he is found on 75 foney..ZXF is still playin the field -- YL es footbal. He is carrying hash marks frum scrimmage wunder wat kind of marks he has frum the YL'itis...CMA innished the bathroom construction es then QSY to Conn. W1 area. To date we haven't herd of his misdoings in that ar area, however this area knows he is back in bizness agn...ZRQ cudn't see ZXF have all the glory in the fender bender club, he had to do it up rite, frunt rite es rear rite were put to his credit No wun hert except a bruzed rite arm of his XYL, nw she nails him with a wicked left...YXS is bizzy extending the uper extremities of the shack. Luks like a vry FB operating room is in store for him ? The COW has jest been made the first- one - and only teknicution of the club, QSO may be had on 6 mtrs.....KJJ raves of another new country es pastbord frum samo, score nw 161 workd-144 cfm..He also broke the ice es gave the locals a QSO on 75 in one of the rag-chews on Sundays. Wat sa fellas get in on sum of these next Sunday AM...Due to tecnicalities CSR is QRT up Hometown way. wat sa Harry lets git buzzy...ORJ was QRL Hershey Picnic es in the prb-cess of putting up a new all band Ant....OML jest QRO 100 watts os has been herd on the A N C.W. net sum time nw. he still handles TFC vry FB....WANTED...One Private EYE..Care of FLJ. Mystery ? ? Who cut sed ant. dwn..Reward offere ..(a clue, See his neighbors) EEK is out fer football nw..the neighbors R getting a well de-served rest, he is also QRP due to a burnt primary in his Blobe Scout..CUK jest got bk frum his vacation...YYT has been herd on 40 werkin DX, luck Bob...Schaeffer es Reilley are still sweatin it out fer their novice ticket..QKV/m is a press room visitor, he can be werked all bands on his 50 watter /m/..West Hazelton Electronics nw has a bull line of NATIONAL ham gear, wat sa stop in es sa Hello to Stan sum time.....

—— RE: QST ES WRAPPER ——

To these who get QST and are ARRL members, we say-Make sure you keep up your ARRL membership. Each year the club tries to get ten or more members to renew their membership in ARRL VIA the TARC. This year we again ask you. A renewal, extension or a new membership may be had in ARRL if you get your $4.00 to the club secretary on or before the meeting of Sept 24. Don't forget its y your ARRL membership that keeps this club an ARRL affiliate.

Yep the "Sardine Wrapper" is getting perty well noted. It was mentioned in August issue of QST page 70. Also along with quite a number of other publications. This Club paper goes to ARRL every month and also to the following clubs papers also.

CKRC-ink Kansas-Nebraska Radio Club-Salina, Kans.
SARC SPARKS....Sidnay Amateur Radio Club, Sidney, N.Y.
M.C.R.C. Bulletin Motor City Radio Club, Detroit, Mich.
Q T C Northeastern Penn. Amateur Radio Newsletter
Wyoming Valley Radio Club, Wilkes-Barre, Pa.
AUTO-CALL Washington Mobile Radio Club, Inc.
Washington, D. C.
Harmonic in a Vaccuum
Oregan Amateur Radio Society, Portland, Ore.

ANTHRACITE NET NOTES * * * By W3ZRQ Net Mgr.

Many of us are fortunate in getting a vacation. Iam one of those fortunates. Therefore I will not be present for a few ses-sions of our net and I hope that one of my assistants will handle this job while I'm away. This is being printed way in advance of Editorial and printing time so I shall probably be back in swing when you reveive the Wrapper, All I can tell you at present is, The July report QNI, QTC was one that hit a new high. All I can say is TKS es keep up the gud work fellas. 73

AN meets Mon, thru Fri. 6:30 P.M. 3610 Kc.

34

The square to your left is the one which was mentioned in the editorial. In it is a number This is your lucky number. Don't forget to have it along at the September meetings.
